

BREATHE EZ™ HOUSE WRAP

Breathe EZ™ house wrap stops winds from robbing homes of their energy and insulation values. Breathe EZ™ reduces the air exchange that occurs in homes as air moves through the wall cavities. Tiny micro perforations also allow the release of water vapor to help prevent any moisture condensation. Breathe EZ™ water resistant air infiltration barrier is lightweight and easy to install, yet strong and durable, to reduce jobsite waste.

PRODUCT SPECIFICATIONS		TEST METHOD
Composition	Woven Polyolefin	
Thickness	Avg 3.2 Mils	
Tensile Strength	MD 84 lb CD 64 lb	ASTM D 5034
Tear Strength	MD 21 lb CD 19 lb	ASTM D 5587
Water Resistance	PASS – 60 Minutes	
MVTR/PERMS	10 PERMS (Avg)	
UV Resistance	9 months	
Fire Rating	Class A	
		ASTM D 84

Breathe EZ™ Water Resistant Air Infiltration Barrier has been tested, and meets (or exceeds) all relevant requirements of ICC-ES AC38 - “Acceptance Criteria for Water-Resistive Barriers”.
